Hi Monisha,

Confirming that this is for work between Oct. 1, 2019 to now . I did notice 1 more Benefits chemical in the "completed task" tab that we may want to include along with 1 Hazard comparison

## Ex. 5 Deliberative Process (DP)

Just to clarify, my previous question was to clarify what the following chemical reviews should be classified as (see below)

- 
- 
- 

## Ex. 5 Deliberative Process (DP)

Are these Benefits, EEU or Hazard comparisons? And if they fall under any of those categories, we could also include them. Please let me know. I have attached an updated FY2020 sheet. Thanks!

Gerald

Thank you! I will take a look. Confirming that this is for work between Oct 1, 2019 to now?

EEU= extension of exclusive use

RM should be = resistance management (aka HRM = herbicide resistance management)

Hi Monisha,

Here you go...

## Ex. 5 Deliberative Process (DP)

I have attached a spreadsheet I created to track the FY 2020 BEAD tasks. I also noticed some missing dates on the RD tracker so I am working to get those up to date. Below are a few follow ups I have.

## Ex. 5 Deliberative Process (DP)

In the Excell sheet FY 2020- I indicated completed task (in green) why flagging others that may have been either withdrawn, on hold or require some follow up (in beige).

I did have a few questions that I wasn't sure about on the RM/EEU slide of the RD tracker. For the chemicals Imazamox Pufa and Flupyardifurone- what type of tasks are these? BM or what? Please let me know. Thanks!

Gerald

Thanks. You might also crosscheck in BEAD's Official Records.

**Importance:** High

Gerald,

For FY20, can you please provide a list of the following completed actions:

Any other RD actions that I missed, please go ahead and add them.

Thanks!

Monisha
